Wilson Opposes Harding's World Court Proposal

In First Formal Expression, Former President States Opposition to Conditional U. S. Adhesion to Court of Justice.

(By The Associated Press)
PHILADELPHIA, April 14.—Former President Wilson is opposed to President Harding's proposal for conditional American adhesion to the permanent court of international justice established at the Hague under the auspices of the League of Nations, the Public Ledger says today in a despatch from Washington.

The despatch said that Mr. Wilson's first formal expression on international affairs since the administration submitted its plans to the Senate February 24, was embodied in a letter to Arthur B. Rouse, of Kentucky, chairman of the Democratic Congressional Committee in reply to an enquiry.

In reply to your letter of March 23 let me say that I approve not of 'conditional' but of unconditional adhesion of the United States to the World Court, set up under the auspices of the League of Nations, though I think it will be more consistent with the same of the United States for candor and courage to become a member of the League of Nations and share with the other members the responsibilities which its covenant involves.

Curtain Almost Ready To Roll Up On Ball Season

NEW YORK, April 14.—Baseball fandom pulsed a bit quicker today as the smoke of another diamond campaign became more pronounced.

With most of the other Major League squads already on their home grounds, all three Metropolitan clubs today were scheduled for their first appearance in exhibition games, the Yankees playing Brooklyn at Ebbets' field while the Giants engaged the White Sox at the Polo Grounds.

According to camp followers, both championship clubs are in good condition and loaded with confidence, but there is a growing feeling that their path is beset with more formidable obstacles than at any time in the last two years.

Taking into account the inevitable uncertainty of the game, a majority of experts view the American League race as a neck-and-neck struggle between the Yanks and Ty Cobb's Tigers.

In the National League they predict a three-cornered affair with the Giants, Pittsburgh and Cincinnati as the principals.

An outside chance is conceded Chicago. Cubs in the National League while the White Sox loom as a factor in the American League struggle.

Government May Operate Ships if Fair Price Fails

President Harding and the Shipping Board Announce Policy in Disposing of Vessels.

(By The Associated Press)
WASHINGTON, April 14.—Decision was reached by President Harding and members of the Shipping Board at a conference today to proceed at once to the consolidation of the board's foreign trade lines and then offer these lines and ships for sale under the authorization of the Merchant Marine Act of 1920 conditioned on suitable guarantees of the maintained service.

The programme decided on further provides that if the government finds itself unable to sell the ships and lines without "justifiable sacrifice," the policy then will be to direct government operation.

The whole policy as set forth in a White House statement was declared to be based on the basic principle that the administration was determined that the United States should have a merchant marine. It was added that in furtherance of that purpose the support of the shipping public and American people is counted upon.

Auto Mechanic Killed By Train

(By The Associated Press)
GREENSBORO, N. C., April 14.—John Dunn, aged about 35 years, was instantly killed here this afternoon at 12:30 o'clock near White Oak when he was struck by a train. He was walking along the track when hit, said trainmen.

He was an automobile mechanic and came here from Durham, N. C., two years ago. He leaves a widow and eight children.

NEXT WEEK'S WEATHER.

RICHMOND, Va., April 14.—Cloudy, unsettled and cold first part of week. Middle and latter parts of week generally fair with moderate temperature.

Ward's "Million-Dollar" Counsel

Walter S. Ward's four attorneys, called the "million-dollar" counsel, leaving court Albany after introducing injunction to prevent cables between Ward and his father being introduced in states investigation into slaying of Clarence Peters. Left to right, Allan R. Campbell, D. Cady Herrick, Eliwood Rabenold and Isaac N. Mills.

Princess Elise Is Some Cow

(By The Associated Press)
RALEIGH, N. C., April 14.—Princess Elise, of Charlotte, not only is "some cow" but also is New Jersey State Champion four year old, according to J. A. Arvey, of the Agricultural Extension Service.

And her honors do not stop there. She has qualified as a gold and silver medal cow, under the regulations of the American Jersey Cattle Club.

She produced 12,451 pounds of milk and 729.50 pounds of butter fat in one year, according to statistics of the service.

"Princess Elise," said Mr. Arvey, "take away the state championship from Pender's Lactant Lass E. 330.49, who held this new champion, property of R. E. McDowell, Charlotte, complies with all the requirements demanded." She calved within sixteen months of her last freshening prior to the test and carried calf 232 days during her lactation period. Elise's average test for thirteen inspections was 5.94 per cent. of butter fat.

"Princess Elise," comes from Noble blood. Her sire is Jap's Interestful O 134149, a sire of Karnak's Jap 84363, and her dam is Noble Princess K. 884864. These names are familiar to the breeders of blooded Jersey cattle.

Since 1920, there have been nine Jersey cows with average official records of 12,988 pounds, of milk and 747.81 pounds of butter fat each in New Jersey.

"The official testing work fostered by the State College and Department of Agriculture is proving that there are cows in North Carolina which are equal in production to those of most well developed dairy sections," he continued. "For this reason, I can see no necessity for dairymen to go out of the state in order to secure a good bull of register of merit backing."

Dr. Divers Builds a New Hospital In Patrick County

Dr. George T. Divers, a well known physician of Stuart has let the contract for construction of his new hospital in the Patrick county seat which will be a four-story structure and which is expected to be ready for occupancy by August. The hospital is to be located on the site of the Mothers Home which was conducted for years by Dr. R. S. Martin. There will be forty rooms in the new hospital, these including an operating theatre, X-ray room and accommodations for thirty patients. The construction will be of brick and tile, therefore fireproof.

Bridge Blown Down By Force Of Wind

Reports reaching here today from Rockingham county where a miniature cyclone did damage as yet not estimated, told of the destruction of Seventh bridge which spans Dan River 14 miles west of Reidsville between Weathersburg and Stoneville. This bridge, an old covered structure, was torn down by the force of the wind, being totally destroyed.

The windstorm struck the south end of Reidsville but apparently did no material damage there. It is probable that farmhouses suffered in the more exposed sections. A heavy black cloud came up after one o'clock and with it a sudden wind storm accompanied by heavy rain and thunder.

The protracted rain resulted today in a sharp rise in Dan River with the stream still rising this forenoon, considerable debris being seen passing down stream.

NEW MILITARY SEAPLANE FLOWN WITH SUCCESS

(By The Associated Press)
CLEVELAND, O., April 13.—The government's new military seaplane said to be the smallest in the world, was flown successfully for the first time here today. After the flight, permission was asked of the Navy Department of aeronautics to increase the size of the elevator control surface. Test Pilot, J. Scott Williams reported that the adjunct would make the ship easier to handle in the air.

Auto Mechanic Killed By Train

(By The Associated Press)
GREENSBORO, N. C., April 14.—John Dunn, aged about 35 years, was instantly killed here this afternoon at 12:30 o'clock near White Oak when he was struck by a train. He was walking along the track when hit, said trainmen.

He was an automobile mechanic and came here from Durham, N. C., two years ago. He leaves a widow and eight children.

NEXT WEEK'S WEATHER.

RICHMOND, Va., April 14.—Cloudy, unsettled and cold first part of week. Middle and latter parts of week generally fair with moderate temperature.

Schools Prepare For Big Even On May Day In City

George P. Heobl, supervisor of physical training in local schools, has completed arrangements for May Day exercises, in which all the schools of the city will be represented, to be held on May 3rd. Teachers of the various committees are working hard to make a good showing on that day.

Each afternoon sees the different schools of children practicing for the different events that are to be held in competition for the Silver Cup that Stonewall Jackson school won last year. This cup was donated by the Kiwanis Club and is again up before the eyes and hearts of all teachers and children of the different schools.

The winning of this beautiful trophy will have the pleasure and honor of holding same for one year.

Each of the four schools are practicing for a folk dance which will be in costume. The different Folk Dance committees are as follows:

Stonewall Jackson School—Teachers: Miss Hazel Tyner, Miss Adeline Flynn and Miss Elizabeth Croxton.

Robert E. Lee School—Teachers: Miss Sue Brown, Miss Helen Browder, Miss Mary Payne and Miss Esther Meador.

Belleuve School—Teachers: Miss Lucy Land, Miss Lito Dietrick, Miss Erma Anderson and Miss Olivia Perkinson.

Belmont Park School—Teachers: Miss Francis Cornor, Mrs. Clara Daniel, Miss Margaret Jamerson and Mrs. Fred Pruitt.

The list of officials and judges for the events will be published in the near future. The general committee is now rounding things into shape. The Boy Scouts are to take their part in the program. The different Scout masters are to be asked to give their time and assistance in making this event a big one.

This year the public schools have not had the proper backing financially because all of the schools could not buy the proper equipment to maintain athletic contests. The School Board could not help but sympathize with the physical training teachers to work a hardship on the children. This May Day is going to be the opener for next year's work. The admission price will be small but will put the boys and girls in good shape for buying such things as Basket Ball, volleyball, etc., for next year's program.

The Parent-Teachers Association are doing their part by getting the program advertised and by arranging for the sale that day on the grounds of such items that they chose to sell.

Teachers in all the schools are showing much enthusiasm and setting their classes ready for the opening event. Six of the R. E. Lee Classes were out Thursday and looked very good for their first time.

There are twenty events on the program for May 3rd, which follows:

Physical Exercise Class by Stonewall Jackson School; Folk Dance by Rison Park School; Physical Exercise Class by R. E. Lee School; Folk Dance by Belleuve School; Flag Drill by 4 classes; 60 mumble named schools; Physical Exercises by Belleuve School; Folk Dance by R. E. Lee School; Physical Exercises by Rison Park School; Folk Dance by Stonewall Jackson School; 30 yards Dash under 70 pounds; Boys 50 yards Dash under 75 pounds; Girls 50 yards Dash under 110 pounds; Boys 75 yards Dash under 115 pounds; Girls 50 yards Dash under 110 pounds; Boys 100 yards Dash under 120 pounds; Girls 100 yards Dash under 120 pounds; Boys Running High Jump; Boys Running High Jump; Girls Running High Jump; Boys Running Broad Jump; Girls Running Broad Jump; Boys Chinning Contest; Boys Chinning Contest; Girls Running High Jump; Boys Running High Jump; Boys Relay Race 200 yards under 95 pounds; Girls Relay Race 160 yards under 90 pounds; and a Boys Relay Race 300 yards over 95 pounds.

Riding Master and Mathilde McCormick Wed

(By The Associated Press)
CHICAGO, April 14.—Mathilde McCormick, younger daughter of Harold F. and Bertha Rockefeller McCormick, was married in London yesterday to Max Oser, major in the Swiss army and riding master, according to despatch to the Chicago Tribune from its London correspondent.

Reunion Of Vets In New Orleans Biggest In History

(By The Associated Press)
NEW ORLEANS, April 14.—Trains departing throughout last night and today, many of them running in several sections, were emptying New Orleans of Confederate Veterans and visitors who attended the 37th annual reunion of United Confederate Veterans, which came to a close yesterday with the veterans' parade.

Many of the soldiers declared the reunion one of the greatest in the history of the organization. Tired and weary many of them departed after the parade to await the next meeting of comrades in Memphis next year.

Conditions At House Of David To Be Probed

(By The Associated Press)
DETROIT, April 14.—A grand jury investigation into conditions at the House of David colony at Benton Harbor is to be instituted, it was announced today to begin April 25th.

The proceedings will be conducted before Circuit Judge Harry Dingleman of Detroit presiding circuit judge for the state.

Business Live For This Champ Burier

AUBURN, N. Y., April 14.—America's champion burier doesn't find his business dead.

It is so lively that it keeps Jacob O. Lee young even at 71.

Since he got on his job 54 years ago at the Fort Hill Cemetery here he has laid away 60,000 persons.

"And I'm not through yet," he says.

Among those whom he interred were the first man to be electrocuted in the death chair, hundreds of criminals who died in Auburn prison, and Leon Czolgosz, executed for the assassination of President McKinley.

But on the other side of the line fence separating the criminal burials ground from the cemetery proper stand monuments to men who have made history. All were Lee's friends, and he boasts proudly of them yet.

William H. Seward, purchaser of Alaska and Lincoln's secretary of state; Congressman Serrano E. Payne and other notables.

"Some day I'll have to join them," the veteran burier says, "but I hope it won't be soon."

Galli-Curci's Mother Is Dead

(By The Associated Press)
NEW YORK, April 14.—Singer Enrico Galli-Curci's mother, Mrs. Galli-Curci, died yesterday at her home in Milan, aged 87, a cable message received last night by the singer's managers stated.

The news was communicated to the singer now on a concert tour.

Life Insurance—"Buy from Bass"

Irish Plot To Destroy Life and Property Revealed

Girl In Nightie Found In Cellar; Wife Wins Suit

WASHINGTON, April 13.—A Subterranean passage discovered when police stumbled over a trapdoor in the bathroom of an apartment occupied by William F. Koppen, at Cumberland, Md., in which was found a woman clad only in a night gown won an absolute decree of divorce for Mrs. Koppen in the District Supreme court yesterday.

On March 14, 1922, John P. Minnick, assistant chief of police at Cumberland, searched Koppen's apartment after complaint had been made that "a woman, not his wife, was there."

Room was searched, but the woman could not be found. As he was about to leave the place, he stumbled over the bathroom trapdoor. Opening the trap, he descended to the underground passage and there found the woman. Both the woman and Koppen, who was clad in a nightgown, were arrested.

Mrs. Koppen, basing her claim on the trapdoor and subterranean passage incident, immediately filed suit for divorce. The Koppens were married 38 years ago.

Wealthy Man Fails To Press Robbery Charge

NEW YORK, April 13.—The charge against Miss Christine Magruder, beautiful Washington girl, that she had systematically robbed Max Bernstein, millionaire diamond importer, of gems worth \$250,000 collapsed today.

Magistrate Francis X. McQuade, sitting in Yorkville Court, dismissed the charge against the girl, following the failure of the plaintiff's attorneys to have their case ready for trial.

Bernstein who lives with his wife and family, caused the arrest of Miss Magruder a week ago, alleging that during a period of friendship extending over five years she had pilfered him of jewels worth a fortune.

Miss Magruder alleged that following the breaking off of her friendly relations with Bernstein, the latter visited her Greenwich Village studio during her absence, spilled acid on the rug, slashed the upholstery of the furniture, wrecked the phonograph and sprayed acid on her furs and garments, causing damage of \$4,000. Bernstein was arrested on charges of malicious mischief and is now at liberty.

Leaves Wife Over 3-Cent Poker Debt

RENO, Nev., April 14.—For three cents Walter Parrish, of Newark, N. J., left his wife and two children.

Parrish told the police here recently that a poker game with his wife during her absence caused his abrupt departure.

He drew to a four-card flush and failed to help his hand. He bet three cents. His wife dropped out and his mother-in-law was about to throw away her hand when Mrs. Parrish glanced over at his cards.

"Mama, Walter hasn't a thing," she said.

"If she was a man I'd have killed her," Parrish told a group of officers. "As it was I left her."

Parrish is on his way back to Newark from San Francisco in the custody of Officer H. A. Seelman. He will face charges of abandoning his family.

Rotary Club Will Hold Ladies Night

Next Tuesday night will be "Ladies Night" for the Rotary club. This will be staged in the dining room of the Masonic Temple and while it will be an informal supper a somewhat elaborate programme has been prepared by W. C. Griggs, who is chairman of the entertainment committee. H. R. Fitzgerald, the recently elected president of the club will be preside and a good attendance of Rotarians and Rotarianettes is expected.

League Mgtion Lacks Second

(By The Associated Press)
DES MOINES, Iowa, April 14.—Efforts to instill a sense of the League of Nations in the war prevention resolution of the National League of Women Voters at the fourth annual convention failed today for lack of a second to the motion made by Mrs. Blanche McKelvey of Omaha.

McKelvey said she was inspired to offer the substitution by Lord Robert Cecil's address of last night.

INTEREST IN BOY SCOUT WORK IN DANVILLE IS GROWING DAILY

Interest in the Boy Scout movement in Danville is spreading rapidly as the outdoor season nears and large opportunities for healthful open air recreation are afforded. The local movement, which started with seven Boy Scouts is increasing daily with new recruits being taken into the organization, this making necessary an increase in the number of scout troops. There are now 40 boys enrolled with the prospect of the number being materially swelled during the next few weeks.

One of the most recent developments in the movement has been the organization of baseball teams, a schedule of games to be played after the close of the school session having been already drawn up. The boys are already showing keen rivalry and enthusiasm in their play. Marshall street is being developed, the young scouts can be seen practicing any fine afternoon.

One Danville man who has given a good deal of time and energy to the development of the Boy Scout movement in Danville, recognizing the inculcation of many principles resulting from the organization said today that the appearance here a few days ago of Cameron Burt had greatly stimulated public interest in the movement. The Rotary club which long since recognized the constructive work among boys which could be accomplished through the medium of a Scout organization is adding to its full and active ally in the Lions club and these two organizations in close cooperation hope to accomplish much in this direction.

Interest just now is centered on the Scout camp which will have a reservation which is to be established on the farm near Pelham of A. D. Stirling who has cheerfully co-operated in making this possible. One of the earliest developments of the camp will be the building of a dam across the stream at a cost of about \$500. This will back the waters of a limpid stream up some distance affording a swimming pool 150 yards long and 40 yards wide with a depth ranging from four to eight feet. At a later date it is hoped to stock the stream with fish. The camp is within half an hour's ride and walk from Danville and after its establishment it promises to be well patronized.

Danville men who are giving of their time to promote the welfare of scout work and who are scoutmasters include A. T. Whitford, Edgar Holaday, Cameron Burt and greatly stimulated public interest in the T. Catlin, Jr.

Lynchburg Wins Debate; Reading Won By Danville

Representatives of the Danville High School and the Lynchburg High School appeared last night in the local high school auditorium in a reading debate and debating contest. In spite of the inclement weather, the large auditorium was well filled and those present gave evidence of having enjoyed the program, attending this fact by attentiveness and applause. The question, "Resolved, That the Principles of the Open Shop Should Apply in American Industry," was the subject. Lynchburg students, Charles Spencer and Ruth Reynolds, had the affirmative and were given the decision by two to one vote over Danville debaters, who argued on the negative. Danville's representative, George Watson and Helen Cadwallader. The Lynchburg girls also won the reading, but the Danville boys in reading were given the honors. For the girls, the Lynchburgs, Judith Gregory, outpointed Gladys Poe of Danville, who was awarded the decision over Hugh Lewis of the Hill City school.

Both the local boy and girl won the public speaking contest, Danville being represented by Edna Myers and James Shigburne, who were opposed by Courtney Wilkinson and Elmer Johnson. The program also included a vocal solo by Esther Rosenberg, which was well received and selections by the High School orchestra at intervals. The judges of the contest were C. G. Evans, Malcolm Harris and Dr. T. A. Smith. In the debates both sides argued well and showed remarkable talent. Charles Spencer, for Lynchburg, made a splendid talk in behalf of the "Open Shop," while George Watson followed with as good a talk for the "Closed Shop." Ruth Reynolds of Lynchburg, continued in affirmative, and Helen Cadwallader in the negative. They followed with short talks in rebuttal. The speakers illustrated their arguments and upheld the question in splendid form. The visitors pointed out advantages of unions both to employer and employee as they saw them while the local speakers argued that "strike boys" and "blackmail" which invariably occur in every union concern or industry, were deplorable. The program lasted nearly two hours, but because of its interest, the audience's attention was throughout.

WAGE INCREASE ANNOUNCED
(By The Associated Press)
CHICAGO, April 13.—Armour and Company announced a wage increase of approximately 10 per cent affecting more than 35,000 employees today. The increase will apply to employees of Mosaic and Company recently taken over by Armour.

Mrs. J. C. WILMOTH.

Weak or Nervous? After the Flu, this Woman Tells Her Experience

Montrose, Va.—"After having the flu I was very weak and nervous. I got one bottle of Dr. Pierce's Golden Medical Discovery and two bottles of Favorite Prescription and they did me so much good. I am 67 years old and do lots of work last summer and am doing my housework and washing for four in my family."—Mrs. J. C. Wilmoth, R. F. D. 2.

Health is your most valuable asset. It does not pay to neglect it. Go at once to your neighborhood drug store and get Dr. Pierce's Family Remedies in tablet or liquid form. Write Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for free medical advice—adv.

Candler and Son Being Sued

(Special to The Bee)

ATLANTA, Ga., April 14.—Have riches and social prominence brought only sorrow and scandal to Asa G. Candler, Sr., and his favorite son, Walter?

Father and son, the former the wealthiest citizen of the South, and the latter a millionaire bank director, are facing suits brought by women. The father must defend a suit for \$500,000 brought by Mrs. Onezima DeBouché, famous New Orleans beauty, for breach of promise, while Walter is the defendant in a suit for \$100,000 brought by Mrs. Clyde Byfield, young Atlanta matron, who alleges in her formal complaint Walter attacked her while she and her husband were his guest on a trip to Europe.

Both suits shortly will come to trial in Atlanta. Southern society is sitting on the edge of its upholstered chair waiting for them to start. The father's trial will be in the United States court, while the son's will take place in the state court.

Breaks Engagement.
Candler, Sr., in his reply to the suit, admitted he promised to wed Mrs. DeBouché, but declared he and she broke the wedding engagement when accusations were made against her regarding her conduct during a Confederate veterans' reunion several years ago.

Candler met Mrs. DeBouché at this reunion and, according to Mrs. DeBouché's petition, wooed her ardently until she promised to become his bride.

Candler is 74 while Mrs. DeBouché is much younger. Mrs. Byfield, in her petition against Walter Candler, set forth that the attempted attack followed a wine supper on board the steamship Derwent.

As a counter suit Walter Candler has started legal action to prevent Clyde Byfield, husband of Mrs. Byfield, who also was a member of the European party, from collecting a sum of \$22,700 alleged to have been given Byfield by Candler in Paris.

Son Claims Blackmail.
Candler says it is blackmail. Byfield claims the money was rightfully due him.

A feature of this case is that Mrs. Walter Candler, who left for California with her mother and small son simultaneously with the departure of Candler, and the DuBois of Europe, has returned to Atlanta, and says she will defend her husband against the attacks of the Byfields.

The suit brought by Mrs. DeBouché against the father is a multimillion-dollar case. The first damage suit he has filed in with women on the opposing side.

A few years ago he had Mrs. Margaret Hirsch, a prominent matron of Atlanta, tried on a charge of attempted blackmail, together with "Handsome Bill" Cook, real estate salesman.

Candler also met Mrs. Hirsch at a reunion of Confederate veterans in Atlanta, and at the time was serving as mayor of Atlanta. Mrs. Hirsch and Cook both were found guilty of attempted blackmail, sentenced to jail, however.

In the suit brought by Mrs. DeBouché, Candler is facing a far different proposition. Mrs. DeBouché says she would have been perfectly willing to break the engagement at any time for any good reason whatsoever, but that she intends to make Mr. Candler tell her what she has done, so that she may have a chance to vindicate her name.

Mrs. DeBouché, who is reputed to be quite wealthy, says she will not stop her fight until the world knows that the charge is a vicious and malicious lie.

And so the storm swirls about the homes of Atlanta's wealthiest citizens.

AMUNDSEN STARTS TRIP
(By The Associated Press)
NOME, Alaska, April 12.—Captain Roald Amundsen, leader of an Arctic expedition that left the United States last summer started today from here by dog team for Wainwright, 500 miles north of Nome, to attempt in June to fly over the north pole.

TIRES WITH 500 NAIL HOLES LEAK NO AIR.

Mr. M. C. Milburn, of Chicago, has invented a new puncture-proof inner tube which in actual test was punctured 500 times without the loss of any air. Increase your mileage from 10,000 to 12,000 miles without removing the wonderful tube from the wheel and the beauty of it will be that the new puncture-proof tube costs no more than the ordinary tube and makes riding a real pleasure. You can write Mr. M. C. Milburn at 333 West 30th St. Chicago, as he wants to introduce everywhere. Wonderful opportunity for agents. If interested write him today.—adv.

A. B. Carrington Heads Y. M. C. A.

The board of directors of the Young Men's Association held its regular monthly meeting yesterday afternoon at 5:30 o'clock at which time the election of officers for the ensuing year took place. A. B. Carrington was selected chairman of the board to succeed W. T. Gravelle. All the other officers were re-elected. They were: W. H. Pierce, first vice-president; Dr. G. W. Johnson, second vice-president; George P. Geoghegan, Jr., recording secretary; E. T. Parham, treasurer, and Dan Overbey, Jr., was elected to fill another vacancy on the board.

Following the election of officers the regular routine of business was taken up, after which those present listened attentively to an interesting report by W. W. Brockman, foreign work secretary of Soo Chow, China. The report dealt with work of the Y. M. C. A. as an organization in China. One interesting point brought out was that the local work throughout China has reached a stage where it is now self-supporting. The work is manned by native secretaries, the American officers being there chiefly for the purpose of training the natives for the work. The latter do the actual work. The support given the organization in that country is splendid, according to the report of Mr. Brockman. The Chinese show unusual interest in athletics, but this does not rank first. Big athletic meets such as are common in the United States are held. Education holds first place with the Chinese, religious second, with athletics third. Interest in Shanghai centers on boys' work. Mr. Brockman will remain in this country until about the middle of summer, when he will return to China.

LUTHERANS WILL GIVE BANQUET

The Brotherhood of the Lutheran church will be hosts at a banquet to be given Tuesday night at the Young Men's Christian Association. After the banquet speeches and special music will feature the program. The committee in charge of arrangements are F. H. Adden, E. C. Cadwallader and F. E. Holton.

AT FIRST PRESBYTERIAN
James E. Bear, of Union Theological Seminary, Richmond, Virginia, will occupy the pulpit at the First Presbyterian Church Sunday at 11 a. m. and 8 p. m. Mr. Bear was associated in the work of this church a few summers ago, and is well known in Danville. He is under appointment to go out to China as a missionary this summer, where he expects to take up his life work in the Orient. Mr. Bear has made a splendid record at the Seminary in Richmond, and was awarded the Hoge Fellowship because of his fine scholarship. This enabled him to take a year of post-graduate work, which he will complete in May.

Dr. Joseph Duglison, of Selma, Alabama, pastor of the First Presbyterian Church of this city, will arrive in Danville on Friday, April 20, to take up the work of his new pastorate. He will preach morning and evening next Sunday.

THIRTEENTH DAY OF ALL SORTS OF LUCK TO FARMER

(By The Associated Press)
GREENVILLE, S. C. April 13.—Friday the thirteenth was both a day of ill luck and good luck for Clarence Edwards, Greenville County farmer. Today shortly after noon, a severe windstorm sprang up and grew into cyclonic proportions. The wind centered its force upon the farm of Mr. Edwards and suddenly the far house in which he, his wife and mother were seeking shelter, was lifted from its foundation and carried some distance away, only the floor remaining. When neighbors reached the scene they found all three unharmed. Four barns on the same property were destroyed and a large tree uprooted and hurled against nearby buildings. No injuries were reported as a result of the windstorm, which cut a swath about 40 yards in width and traveled many miles.

GARDEN CLUB MEETS WITH MRS. WILLIAMSON

The Danville Garden Club, an organization which is steadily growing in numbers, interest and influence, yesterday held its regular meeting and were charmingly entertained by Mrs. W. W. Williamson at her country residence, "Rough and Ready" near Pelham, N. C. No had been planned by the members of the club who were her guests to take something to the hosts from their own garden to be transplanted in hers which is as yet a new one, but the unfavorable conditions for securing the plants to be presented caused a postponement of this pleasant surprise feature planned.

The program for the afternoon, in addition to the regular business, included an interesting and delightful paper by Mrs. Williamson on "The Awakening of the Garden," a thoughtful contribution appropriate to the season and to the thought of the members.

The public planting committee, which proposes to provide shrubbery around the hospitals and other public structures, discussed the execution of these plans and the details of them, but without final action.

Emphasis was placed on the fact that April 27th will be Garden Day at which time the merchants will make special offerings of implements, seeds and other necessities of gardening. Several of the merchants have indicated an intention of providing a special exhibition and sale for that date.

ANOTHER SECRET RAID

(By The Associated Press)
LONDON, April 13.—Another secret raid upon persons suspected of plotting in behalf of the Irish Republican cause was made in London early this morning, according to the "Daily Express." The paper mentions Greenwich, Woolwich and Epsom as the districts where the police operated.

WOODRUM WILL SPEAK FRIDAY IN BALTIMORE

(Special to The Register)

BY GEORGE H. MANNING

WASHINGTON, April 13.—Representative Clifton A. Woodrum of Roanoke, will be the principal speaker at the anniversary celebration of Concordia Lodge, of Masons at Baltimore tonight (Friday). Representative Woodrum is prominent in Masonic circles, being Past Grand Master of Kadim Temple, Knights of the Mystic Shrine, of Roanoke, and affiliated with numerous other branches of the Masonic fraternity.

Except for this visit to the Maryland city, Representative Woodrum expects to be in the capital for the rest of the week, having arrived here Thursday following a business trip of several days to New York and Philadelphia.

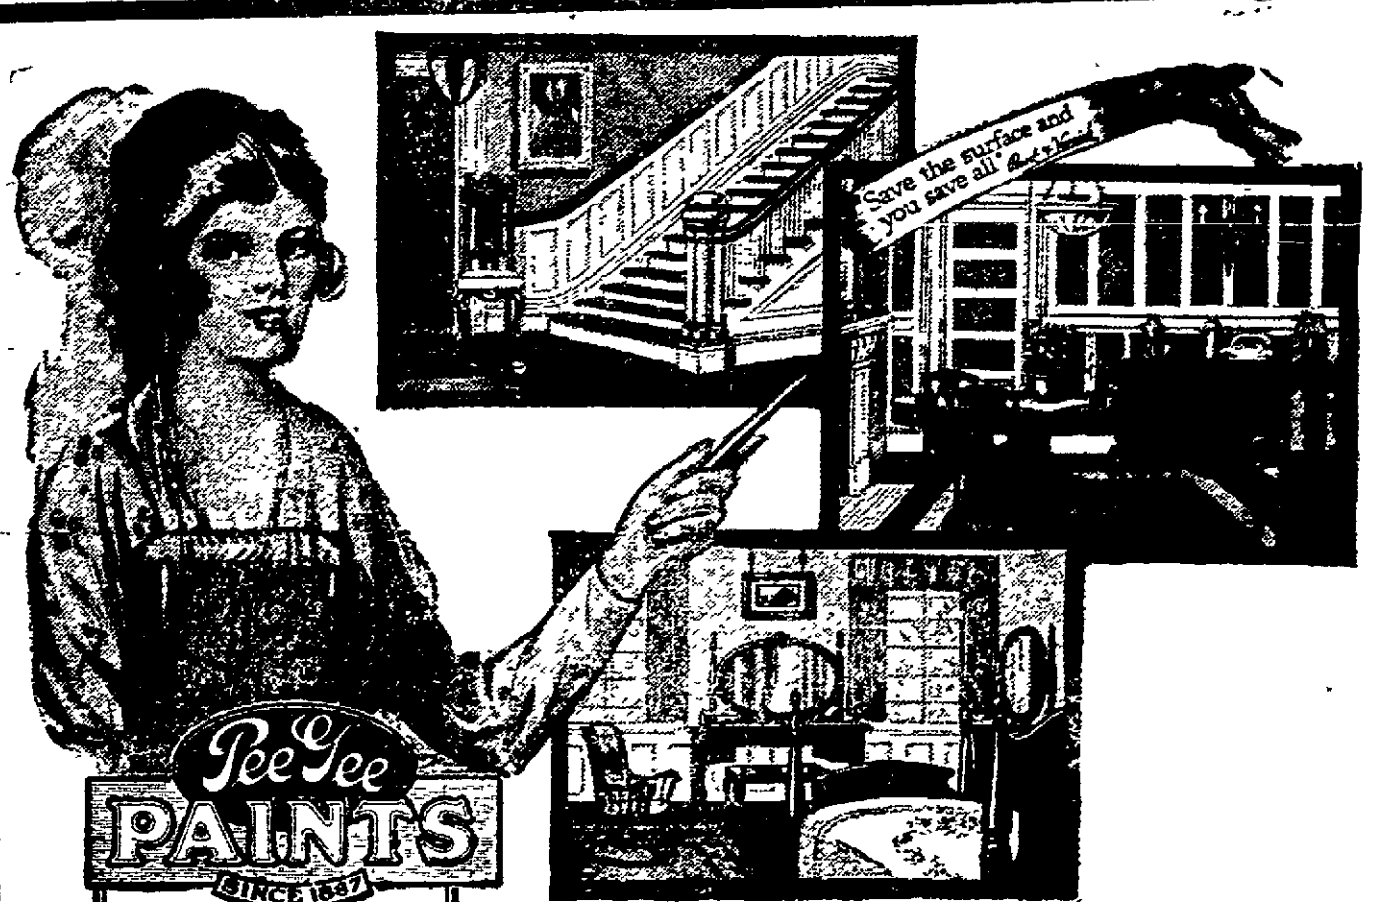

Several special cases are being pressed with the Postoffice Department and the Veterans' Bureau by the Roanoke Congressman for residents of his district. He hopes to get some favorable action on these before his return to Roanoke next week.

PARIS FETES TO RESTORE VERSAILLES AND GARDENS

PARIS, April 13.—Paris will be gay in the Spring with celebrations which are now being planned in order to raise money to restore Versailles and the gardens.

The "Fetes de France" under the direction of Monsieur Berard, Minister of the Beau Arts, will extend over a period of several days and will include the best artists of France. No definite plans can be announced for the moment, but it is probable that there will be some interesting performances at the famous Opera of Versailles and in the Theater de la Reine at the Trianon Palace. Fairly like festival in the gardens amid the great trees and illuminated fountains ought to bring forth a jolly big crowd and beaucoup francs.

Representative Wanted
An old reliable company, wants a representative to sell highest grade turkey stock in this vicinity. Full time or part time. Permanent position good wages as a successful man. Some knowledge of farming helpful. Full instructions of the best age, occupation. HOOPER, BRO., & THOMAS CO., Stephen & Grand Bldg., Phila. Pa.

Walls of Enduring Beauty with Pee Gee Flatkoatt

AN atmosphere of quiet refinement in the home is not created with furniture, rugs and draperies alone; much depends upon artistic decoration of your walls, which should form a correct background and harmonize with the entire surroundings.

With Pee Gee Flatkoatt, the modern, sanitary, durable Flat-Oil finish, you can best express your individuality and taste.

It comes in 24 rich, deep, velvety colors and white, affording endless possibilities for carrying out any color scheme you have in mind.

The colors of Pee Gee Flatkoatt do not fade; and if soiled, are easily restored to their original beauty with a moist cloth or sponge, thereby saving you the expense and inconvenience of frequent redecorating.

"There's a Pee Gee Product for Every Purpose"

Let us show you the beautiful effects obtained with Pee Gee Flatkoatt and give you estimates

Kiwanians To Observe Courtesy Week, Beginning Tomorrow

The Kiwanis club will begin its campaign for "Courtesy Week" tomorrow morning from the various pulpits of the city. E. T. Parham, chairman of the committee to secure the co-operation of the ministers, announced Saturday that letters had been sent to all Danville pastors asking that suitable mention be made of this effort.

Aside from the genial influence of courteous conduct on the lives and characters of all people, it is becoming more and more generally realized that courtesy pays dividend in other respects.

The big corporations, called soulless not so many years ago, are requiring of all their officers and other employees that they be courteous in their attitude to the public. No longer do wise corporation officials assume "the public-be-damned" attitude. Apply one of the popular expressions of the times: "Then days are gone forever." Some of the present-day diplomats of the present time are not in the employ of the government of the world, but are the directors of the public relations departments of big corporations. Retail stores doing business with the general public usually assume the attitude that the customer is always right in every controversy. Some unthinking, overbearing persons may take advantage of such a liberal policy, but most people respond to such courtesy and not only continue their own patronage, but get others to patronize such stores. The larger the store, the more courtesy may be found therein. The large business, invariably is the result of good values given with courtesy.

The successful salesman practices courtesy to win orders. He courts his prospects until they become customers and he keeps on being courteous to retain their concerns. Of Danville as a rule conducted with the utmost courtesy, but in some cases there is room for improvement. To impress upon the younger generation the value of cultivating courteous habits, the Kiwanis Club, through Dr. Jas. Shelbourne, L. L. Kaufman, Hamilton Vass and J. T. Hamilton, Jr., its committee appointed for the purpose, has arranged to have presented to the pupils of the various schools of the city the reasons and importance of the subject. The following able speakers have been secured, and will make talks in the schools mentioned:

John W. Carter, Jr.—Danville High School.
W. Howard Rogers—Robert E. Lee School.
A. D. Keen—Rison Park School.
Jesse W. Benton—Stonewall Jackson School.
John W. Carter—Bellvue School.
The following well known colored speakers will visit the colored schools as indicated:
Rev. C. T. Murray—Lee Street.

Lost Children, Hunted 44 Hours, Found Locked In Deserted Stall

YOUNGSTOWN, O., April 13.—Locked in a deserted market stall for forty-four hours, while thousands of residents of Warren, O., sought them, three little children were discovered today and returned to their protesting mothers.

TAKE THOUSANDS OF GALLONS IN PHILADELPHIA "DRY UP"

(By The Associated Press) PHILADELPHIA, Pa., April 13.—Federal prohibition agents who started a drive Wednesday night to "dry up" Philadelphia, had raided more than eighty saloons, restaurants and other places when they stopped early today for a rest. They could obtain gallons of whisky, wine and beer had been confiscated and a dozen prisoners taken.

Raiders on about fifteen saloons were

Rev. G. W. Good—Holbrook Street.

Rev. Mr. Rustin To Wed Tuesday At Decatur, Ga.

Rev. John Wallace Rustin who, since last October has been pastor of Shedd Memorial Methodist church, will be married at Decatur, Ga., on Tuesday to Miss Jessie Colt Watts, daughter of Mr. and Mrs. George S. Watts. The Atlanta Journal recently announced their engagement said:

"Of cordial interest to friends throughout the state is the announcement today of the engagement of Miss Jessie Colt Watts, daughter of Mr. and Mrs. George S. Watts, of Decatur, to Mr. John Wallace Rustin."

Miss Rustin is a charming young girl of the lovely blond type. She attended Agnes Scott College and is a musician of marked ability. Her mother was formerly Miss Mamie Pennick, and she is the great niece of Mrs. Spencer Atkinson.

"Mr. Rustin, who is a graduate of the 1921 class of Emory University, was most prominently identified in the social, literary and athletic circles of the university. He also attended the Emory School of Law and Theology."

Following their wedding next Tuesday the bride and groom will leave Decatur for their honeymoon which will last for two weeks after which they will return to Danville to make their home in the Green apartment.

New Sunday School Dedication May 20

May 20th is the date which has been set for the dedication of the handsome Sunday school which has been almost completed and which stands next to the church. A committee of the church is at work on the dedication programme but the details of this have not been worked out. It is known, however, that the actual ceremony will take place on the third Sunday in May at which time Rev. J. N. Latham, D. D., former pastor of Main Street Methodist church will be here from Richmond to preach the dedicatory sermon.

missing children accidentally might have been locked up in the market house.

The Warren police, all the Boy Scouts and several thousand citizens had practically abandoned all their business since Tuesday and devoted themselves to a search for the three babies. The rivers had been dragged and every clue investigated.

When they were found, the children had almost worn through the toes of their boots by frantic kicking at the doors of the market stall.

postponed when it was learned that they had been tipped off.

Frederick A. Hazeltine, division prohibition chief, expressed surprise over the charges made by some of his agents that policemen had been directing the thirsty to saloons where they could obtain whisky. He said that the police had extended him every possible aid.

Mayor Moore said the charges would be investigated.

Well, Well! Strip Golf Now!

The loser at each hole doffs an article of clothing. It's best to have the barrel at about the 17th hole. That's where Shirley Vernon, Polles girl, found it quite necessary for the continuance of the game. This, at the Sound View Golf Club, Long Island. Notice that Nellie Savage, her opponent, has lost her shoes and stockings.

Schoolfield Mills May Build 100 New Residences

That the Riverside and Dan River Cotton Mills, Inc. is considering the construction of between fifty and one hundred dwellings for operatives at Schoolfield is learned from an authentic source. The completion of a new mill recently added to the Schoolfield group has resulted in a substantial increase in the personnel and in order to provide them with living quarters and relieving a house shortage at Schoolfield it is proposed to erect the dwellings. It was made clear, however, that nothing definite has been determined upon and the whole scheme may be said to be in tentative stage resulting very largely on estimates of the undertaking. Should these reflect an abnormal increase in the cost of building the project is likely to be deferred.

At the same time it is known that a landscape artist has been here from North Carolina, advising officials of the mill as to the logical site for the development of the houses and a good deal of preliminary work has been undertaken. The houses proposed would not be of the ornate type which grace what has come to be known as "Riverside Drive" but would be slightly though less expensive structures. One project is said to be the development of another "loop" ascending the slope from the river in the direction of the handsome new school building recently completed.

As to the projected Young Men's Christian Association in North Danville and the substantial increase to the present "Y" plant at Schoolfield, these are by no means assured, and have been discussed only in a general way. One, or possibly both of them might be carried out some time within the next 12 months, but this it is said, would depend very largely on building material quotations.

Incidentally it is learned that the legislative processes of the Industrial Democracy are being continued in a satisfactory way. The "House" and "Senate" are meeting once a month with little important legislation pending. The outstanding measure now in committee is the bill which would provide a retirement fund or a pension for men and women who have grown old in the service of the corporation. The terms of the bill are being worked out but the measure probably will not be presented until all of its aspects have been studied more thoroughly.

Good Morning Judge!

One lone drunk and a speeding case was all that was on the docket in the police court this morning. The drunk was found on Union street yesterday by Police Officer W. T. Kessler and when arrested became very disorderly and the officer had difficulty in getting him to the house. It is said that the jailors had trouble with the man in jail also. The man is a frequent offender with the police and it is said that when he is intoxicated, he becomes "crazy" and very disorderly.

Virginian Diner Scene of Blaze

NORFOLK, April 13.—Norfolk's fire loss last month was only a little more than one-half of that incurred in March, 1922, according to the report of the department issued today. The total last month was \$58,979. For March, 1922, the total was \$107,234. Four men died as the result of burns and five were injured in fires a year ago. No injuries were reported in March of this year.

A remarkable feature of the activities of the department last month is the fact that the damage in the city was held to \$15,197, most of the additional loss being due to three marine fires. The burning of the Norfolk and Western barge barge Liberia resulted in \$25,000 loss. The tug Casace which burned in the eastern branch was damaged to an extent of \$5,000 and the launch Commodore Bartlett was partially burned while on Dunn's railway, with a damage of \$800.

Storm Central Over Eastern, Ky. and In Tennessee

(By The Associated Press) WASHINGTON, April 14.—The Southern storm was central this morning over eastern Tennessee and eastern Kentucky and moving slowly eastward, the weather bureau reported. It has been attended by rains in the Atlantic States south of Maryland and in the east Gulf States and Tennessee.

Tree Markers To Be Ordered Soon

The Kiwanis club which last Armistice Day, planted trees to Danville's soldier dead on Mount Vernon and Virginia avenues, will within the next few days order the bronze markers which will permanently identify each tree. These markers will cost \$6.15 each and will be embedded in the concrete curbing of the street. The committee in charge of this work is anxious to have the name of each soldier or sailor properly inscribed on the marker and the revised list of the forty men will be again published in order to offer opportunities for final correction in the initials and the spelling of the names.

STOCK MARKET

(By The Associated Press) NEW YORK, April 14.—Resumption of short covering operations in a number of industrials gave a firm tone to prices in the stock market. Most of the oils opened higher despite a cut of ten cents a barrel in Smackover crude oil prices. A good demand was noted in the motor and motor accessory issues.

Miss Elizabeth Murray is confined to her home on Mount Vernon.

Many Believed Killed by Severe Storm and Wave, Reports Say.

(By The Associated Press) TOKIO, April 14.—Four hundred people, including a number of fishers, men, are missing as result of a tidal wave and storm on the east coast of Korea, according to advices received in Tokyo by the Japanese navy department. The number of lives lost is uncertain but is believed to be large.

SPOKANE BUSINESS MEN GO ON "GIMME STRIKE"

SPOKANE, Wash., April 13.—Business men, who turned down the Community Chest idea for raising funds last year, are now willing that it be revived here. Drives, drives and more drives for funds for this and that purpose threaten to drive men and women mad. Solicitors who have combed the city for dollars report contributors have gone on a strike. Those importuned to raise the money have inaugurated a unique "gimme strike." With the year's ten successive drives have utterly failed to raise established quotas.

Mrs. Nannie Harrison is very ill at her nephew's, Mr. Noland, in Harover county. Her daughter, Mrs. L. C. Berkeley is with her.

Comic Pages & Feature Pages In the Saturday Bee If the Readers Want Them at 1c Additional

Beginning April 21st the Saturday edition of The Bee will contain a six or eight page comic and feature section. This addition to the Saturday paper will cost the publisher at least 1c per copy more. This will be started merely as an experiment to see whether the reading public prefers to pay an additional cent for the extra feature. These papers will be sold to the newsboys and newsdealers at 1 2-3 cents per copy which will retail for 3c per copy. The Saturday Bee with the additional feature section for 3c will be the best newspaper buy on the market. The afternoon paper in Greensboro sells regularly for 5c per copy while the Lynchburg paper sells for 3c per copy daily and neither of these papers contain a feature section.

These additional features will start in The Saturday Bee April 21st but the increased expense for this issue will be borne entirely by the publisher and the price will not be increased to 3c until the following Saturday, APRIL 28th. The circulation figures will be closely checked to see whether the readers of THE BEE desire to have this continued or not. If they do not desire to pay the small increase for the additional feature, it will be discontinued immediately.

The Bee now has more features than any other paper besides having the best News Service obtainable but it is always striving to give the people what they want.

Feature Section Starts Saturday, April 21 Change in Price Effective Saturday, April 28

What's The Use Of a Coat Of Arms Without The Pants?

Some stores are afraid to advertise extra trousers because they think it will hurt their suit business.

BOSH—anything that is good for the customer makes friends for the store.

AUTOMOBILE NEWS

Work For Women Taxi Drivers

By JOSEPHINE VAN DE GRIFT
NEW YORK, April 14.—"I see where you're advertising for lady taxi drivers," I said to the man in charge. "And I was wondering," said the man in charge. "No? Well, you'll have to get that then you'll have to get a hacking license, then you'll have to go over to headquarters and get a finger-printed, and they'll add you all the places you've been in the past five years and look you up in the rogues' gallery."

"Oh, yes, be sure you've got two character references ready and you'd better brush up on what you know about batteries and things because they'll probably give you a mechanic's test and then you'd better be prepared to tell 'em where all the streets and hotels and stations and steamship companies are. If you come through with that all right I think maybe we can fix you up with a job."

"You've got me wrong," I said firmly. "I don't know a thing about batteries or clutches. I was merely wondering if I couldn't take a ride with one of your lady taxi drivers."

"Oh," said the man in charge. "Which is how I came to be 'crusing' through the streets of New York with Mrs. Helen Neumeier—first of the city's new women taxi drivers—chauffeuses they call 'em."

"What would you do," I said, "if a taxi driver—male—should run you up over the curb?"

"Flirt with him," answered Mrs. Neumeier promptly. "I always believe in disarming an enemy."

A policeman's whistle sounded shrilly. "You've got to back up there," he shouted crossly. "Can't go ahead till the second whistle—new ruling."

Then he noticed something. Mrs. Neumeier smiled. The policeman smiled. We sailed on.

A trolley car was slowing up and we sidled in near the curb.

"Whenever there's a crowd waiting for a taxi," explained the chauffeur-ette, "you always want to take the inside line. A lot of 'em will take a taxi, instead, see? And if there's another taxi crusing on ahead, you want to reach around and open your side door. People'll jump into a taxi with an open door every time."

"How much money do you make a week?" I queried politely.

"Forty dollars," she said. "I've got a lot of drunks wanted to ride, what would you do?"

"Oh, that's all right. I think romance needs all the encouragement you can give it. Besides—it's a large part of the business."

MRS. HELEN NEUMEIER, CHAUFFEURETTE, AT WORK ON THE ENGINE OF HER TAXI AND AS ARTIST HIGGINS SAW HER AT THE WHEEL.

A young man dashed out of a hotel and began looking wildly up and down the street. "Taxi," he said, the chauffeur-ette skillfully gliding to the curb.

"The Grand Central station," said the young man. "Quick."

He jumped in, the door slammed. The chauffeur-ette cut through a whole line of impatient traffic. She circled, she dodged, she skimmed along the pavement.

"You're certainly a dandy driver," said her charge, dismounting. He tipped his hat.

"What was his fare?" I queried. "Fifty cents."

"And how much did he tip you?" "Fifty cents."

Scores Of People Pay Tribute To Thos. Jefferson

(By The Associated Press)
CHARLOTTE, N. C., April 13.—Scores of persons from the East and South, including large delegations from New York, Washington and Richmond, joined with the faculty and students of the University of Virginia today in paying a dual tribute to Thomas Jefferson, founder of the institution and author of the Declaration of Independence in commemoration of the 180th anniversary of his birth.

A downpour of rain caused a change in the original program, and the "Founders Day" exercises were held at the University during the forenoon. It was planned to hold the exercises at "Monticello," the Jefferson home, but the storming elements interfered. Braving the rainstorm, however, the groups of persons journeyed to the historic mansions on the mountainside and spent several hours inspecting the building and grounds, which the Thomas Jefferson Memorial Foundation proposed to purchase and preserve as a national memorial.

A visit also was made to Jefferson's grave and two wreaths were laid at the base of the tomb. One of the wreaths was a gift from the National Democratic Club of New York and was placed by Mrs. Martin W. Littleton. The other was from the Albemarle Chapter, Daughters of the American Revolution and was placed by Colonel Thomas Jefferson Randolph, of Charlottesville.

The exercises at the university were featured by the address of Dr. Marjorie Leroy Burton, president of the University of Michigan. Explaining that "the function of the state university is to serve the state and through the state the nation and the world," Dr. Burton declared that "the American modern prophet could truthfully proclaim 'my people are destroyed for lack of knowledge.'"

"At last, thought it seems that the American nation has a question for education," he said. "But America suffers today from ignorance more than from any other single thing."

"Our children may have knowledge of the facts necessary for individual living. Our youth may acquire professional training to a high degree. Their minds, however, have not been educated to those truths which are so essential to a democratic community. Assuming that 'that source of our unbounded confidence' in the future, the lack of the 'higher spirit of American life,' Dr. Burton declared that 'the possible greatness of America' will not be found in the 'superabundance of the things we possess, but in the ideal and the spirit that have animated us from the beginning.'"

"The very essence of Americanism is the supreme value which we place upon the individual," he said. "We are a people who believe in equality and opportunity. This is what we really mean. Coupled with this reverence for reality is the idea that work is noble."

P. O. PENS WILL
GIVE SERVICE

(By The Associated Press)
WASHINGTON, April 13.—Post-office pens that will really write are now available for the public throughout the country, says the Post Office Department. Resenting the size of the old pen "did anyone ever see a good pen in a post office or a bad one in a bank?" a deluge of protests has reached Postmaster General N. J. C. from postmasters who deny that the public writing desk contain one pronged, crooked pen and ink wells holding only a dry, rock like substance.

HINTS FOR THE MOTORIST

Inspection Preparatory To A Trip

Neglect In This Direction May Mean Loss Of Life

A CAR THAT IS TO BE USED for a tour of considerable length requires a special preparatory inspection of its mechanism and equipment, because it is likely to be called upon for higher sustained speeds and harder duty than the every-day service. It may be operated under driving conditions decidedly more hazardous than ordinarily and it may be used in localities where repairs and even ordinary supplies are not readily obtainable. The following suggestions are offered: Examine the tires and make sure they show no signs of weakness and are properly inflated. See that the spares are sound and pumped up, that the supply of inner tubes and valve-plungers is adequate and that emergency repair materials are on board. Fill the storage battery and be sure that the solution tests properly. Do not neglect the spare bulb equipment for the lamps and an extra fan-belt as have one or more first-class spark-plugs and an extra crank-case as part of the spare equipment. Unless the engine crank-case has recently been cleaned out and replenished it may be wise to do it at this time. The rear axle casing and any other housings which require lubricant should be carefully supplied with the required amount and quality of oil or grease. If severe grades and otherwise risky driving conditions are likely to be encountered, very careful inspections should be given the steering gear and the brakes. The former should be scrutinized with the utmost care for any weakness, such as worn or loose parts. The alignment of the front wheels should be verified. The front wheels should be tested as to the security of their fastenings upon the axle. Brakes that may have seemed perfect for sufficient for use on city streets may prove weak on mountain roads and therefore a close examination of all brake parts and their adjustment to a perfect working condition are essential to safety.

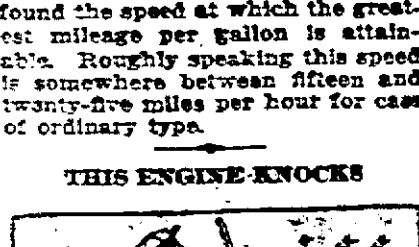

MOST ECONOMICAL SPEED

H. A. asks: Does the speed of a car, whether driven fast or slow, have any effect on the distance it will go on a gallon of gasoline? In other words will it run the same distance on a gallon of gasoline at ten miles an hour as it would at forty miles an hour?

Answer: The speed makes a very decided difference in fuel economy. When a car is running very slow the engine is wasteful of fuel and the development of each horsepower wastes more gasoline than it does at higher speed and heavier loads. This makes fuel economy very low at very low speed. On the other hand for very high speeds road resistance and air resistance call for a very large expenditure of power and a high rate of fuel consumption. This also makes the gasoline economy rather low. There is a range of moderate speeds at which engine economy is fairly good and at the same time the power required is not excessively great, and some-

THIS ENGINE KNOCKS

R. D. F. asks: The engine of my car knocks when it is pulling hard. Is this due to carbon or from other causes?

Answer: If the sound you hear is of a clanking metallic nature and not of a heavy pounding character and it cannot be stopped by retarding the spark, it is probably a "carbon knock," especially if you have run your car over two thousand miles since you had the engine decarbonized. With the fuel now available, if after a couple of thousand of miles of running, the engine begins to clank, it is a safe presumption that it requires decarbonizing.

Questions of general interest to the motorist will be answered by Mr. Clough in this column, space permitting. If an immediate answer is desired, enclose self-addressed, stamped envelope.

COUNTESS TELLS WHY SHE GAVE CASTLE TO BRITISH LABORITES

BY MILTON BRONNER
(Special to The Bee.)

LONDON, April 14.—Imagine the wife of one of the Vanderbills or Rockefellers joining an American Labor Party whose leaders preached nationalization of land, mines and railways, and a capital levy upon big fortunes in order to wipe out war debts.

And you can get some idea of the beautiful Countess of Warwick becoming one of the most ardent supporters of the British Labor Party. To help the party she has offered her splendid home "Easton Lodge," in Sussex, as a place where the parliamentary leaders of the Laborites may spend week-ends to recuperate and to confer.

The granddaughter of Viscount Maynard, she is the wife of the Earl of Warwick, who holds some of the oldest and proudest of British titles of nobility. He is the owner of the famous Warwick Castle, which for some years has been leased to an American. The countess owns 23,000 acres of land in her own name.

I was curious to learn at first hand why a woman who by birth and wealth belonged to the most exclusive of British aristocracy, had become an active member of the party whose rank and file is made up of the British toilers.

She replied quite simply and unaffectedly: "I have belonged to the Labor Party for as many years as it has."

—Mrs. William E. Keiskler, of Memphis Tenn., is visiting her son on Jefferson avenue.

SINCE WOMEN ARE IN POLITICS

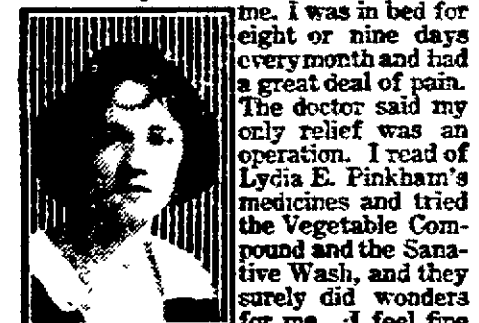

Say, folks, we know that you have heard politics cussed and discussed for a long time, but did you ever see Old Man Politic on the stage? And did you know that he has a wife and a whole bunch of little tickles and did you know that the old fellow is even more henpecked than Jiggs? No? Well, all we've got to say is that you have a lot to learn about him. Now, keep this under your hat and don't talk about it unless you're by yourself or with somebody—if you want to catch a glimpse of the whole Polly Tickle family, be in Masonic Temple auditorium, April 15th 8:15 p. m. We don't know whether they are Democrats or Republicans, but we have heard it rumored that Mrs. Tickle has gotten the upper hand and is planning to start a Woman's Party with the avowed intention of taking the trousers away from the men and making them wear dresses while their wives strut around with the captured breeches! On their arm? Of course not! They're going to wear them. Can you imagine Mrs. So-and-So coming prancing down the street with her hubby's Sunday trousers on? Well, that's just what we understand the women are planning to do. They are to start their campaign Wednesday evening. We understand they are to have a very distinguished speaker from Oklahoma who will address a political meeting that night and explain why the men should not wear the breeches. But if Madam Rumor does not play us false, they will meet with some very stiff opposition on the part of the men. We also understand they have banded themselves together and are planning some very desperate steps in order to protect their inalienable right to wear pants. Just what their plans are and how successful they will be, remains to be seen. It promises to be a very exciting meeting and as the women are very very anxious to present their arguments to as large a crowd as possible, they have requested to urge everybody to attend. If you are not there you will regret it. Remember the date.

R-R 11.

NO OPERATION FOR HER

She Took Lydia E. Pinkham's Vegetable Compound and Escaped the Operation Doctor Advised

Louisville, Ky.—"I wish to thank you for what your medicine has done for me. I was in bed for eight or nine days every month and had a great deal of pain. The doctor said my only relief was an operation. I read of Lydia E. Pinkham's medicines and tried the Vegetable Compound and the Sensitive Wash, and they surely did wonders for me. I feel fine all the time now, also am picking up in weight. I will tell any one that your medicines are wonderful, and you may publish my letter if you wish."—Mrs. Ed. BOENLEN, 1130 Ash St., Louisville, Ky.

Backache, nervousness, painful times, irregularity, tired and run-down feelings, are symptoms of female troubles. Lydia E. Pinkham's Vegetable Compound should be taken whenever there is reason to fear such troubles. It contains nothing that can injure, and tends to tone up and strengthen the organs concerned, so that they may work in a healthy, normal manner. Let it help you as it has thousands of others. Lydia E. Pinkham's Vegetable Compound is now selling almost all over the world.

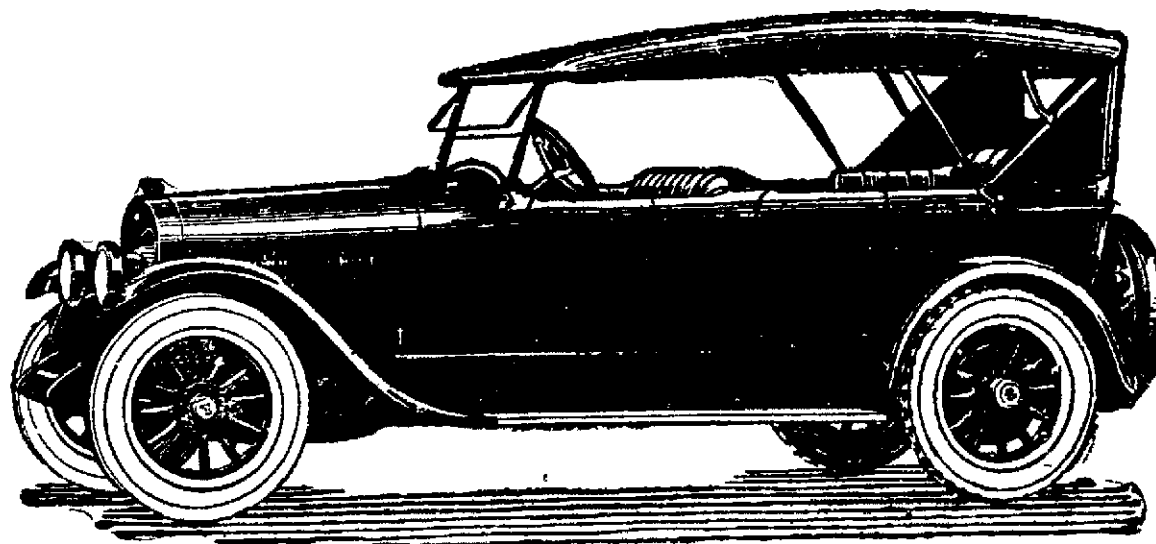

BOUGHT A DRINK.
GLOUCESTER, Ohio, April 13.—Pleading to return with whiskey as evidence against a moonshiner, an alleged informer was given two marks by two officers. Directing the officer to wait, the informer went over the hill. The officers are still waiting.

WATCH FOR VOTE STANDINGS

In Tomorrow's Register and Monday's Bee.

JUST 2 WEEKS To Win the \$100 To Get Big Votes JUST 2 WEEKS

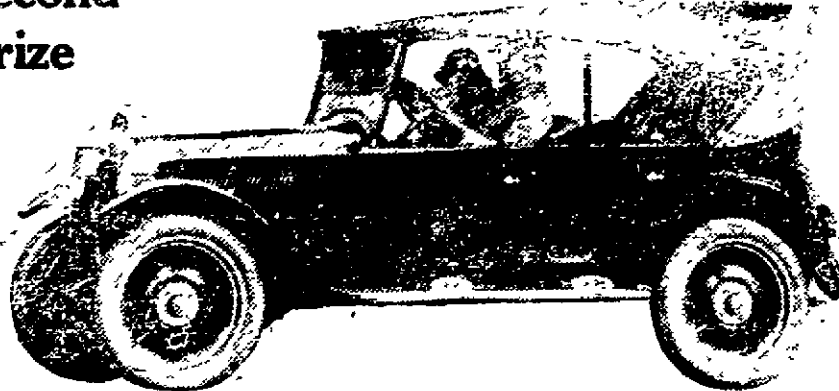

FIRST GRAND CAPITAL PRIZE

\$4,145.00 LINCOLN 7-Passenger Car.

Purchased from and on display at Crowell Auto Co.

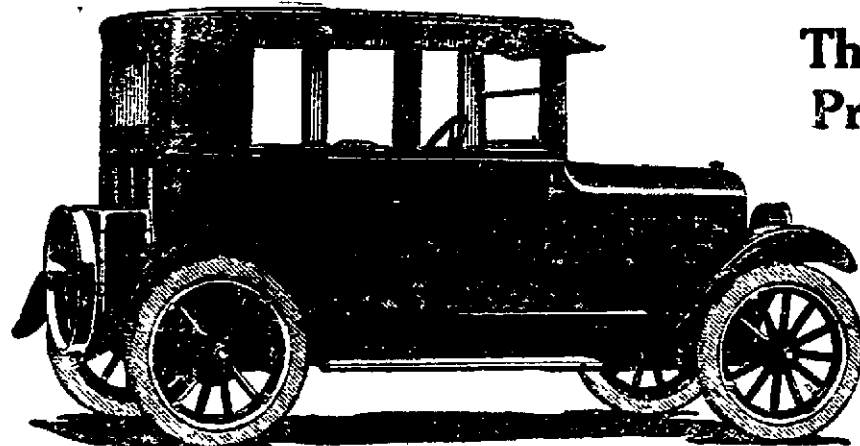

Second Prize

\$1,355.00 HUPMOBILE Sport Car

Purchased from and on display at Leeland Motor Co.

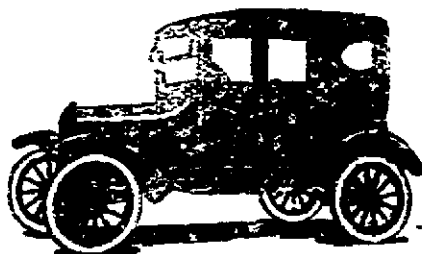

Third Prize

\$100.00

IN GOLD

AS AN EXTRA AWARD

The candidate who secures the greatest number of votes between Monday of this week and April 28th the end of the First Period Big Votes, will be given an extra award of \$100.00 in gold. This \$100.00 extra award is to be given in addition to the five cars and all the other cash prizes, the winner to be announced at the end of the campaign.

Below Are the Prize-Winning Coupons

Send or Mail Them Today

If You Have Not Yet

Entered the Campaign

Clip out the Nomination Blank, below, and enter the Register-Bee's \$10,000.00 "Everybody Wins" automobile and cash prize campaign if you have not yet done so. That starts you on the way to winning either the \$4,145.00 Lincoln seven-passenger touring car, one of the four other automobiles or a cash prize.

Then, the next thing to do is to get a friend to give you a subscription to either the Register or Bee. A new candidate gets 100,000 extra free votes with this first subscription turned in besides the regular number of votes allowed. Then call at Campaign Headquarters, the Register-Bee office, and get any additional information you may want, receipt book, supplies, etc.

But get your nomination in RIGHT AWAY. You will then have just as good an opportunity as anyone could want to win both the extra award of \$100.00 in gold and also one of the five free automobiles.

DO IT NOW so your name will be among the list of candidates which will appear tomorrow in the Register and in the Monday Bee.

FREE VOTING COUPON

GOOD FOR 50 FREE VOTES.

—IN FREE—

REGISTER-AND BEE'S "EVERYBODY WINS" BIG AUTOMOBILE CAMPAIGN.

Hereby cast 50 FREE VOTES to the credit of

Name (Mr. or Mrs.)

Address

This coupon, neatly clipped out, name and address of the candidate filled in, and mailed or delivered to the Election Department of the Register Publishing Company, Danville, Va., will count as 50 FREE VOTES. It does not cost anything to cast these coupons for your favorite candidate, and you are not restricted in any sense in voting. Do not Roll or Fold. Deliver in flat package. Not good after April 28.

FIRST SUBSCRIPTION COUPON

GOOD FOR 100,000 EXTRA VOTES

This coupon will start you in the race for the five fine Automobiles and other Prizes with 100,000 extra votes in addition to the regular votes. This coupon may be used only once and is valid only when accompanied by a subscription remittance.

Name of Subscriber

Address of Subscriber

Amount Enclosed \$.....

Contestant's Name

Address

This coupon will count 100,000 free votes when returned to the Campaign Manager at the Register Publishing Company, Danville, Va., together with the first subscription you obtain. It must be accompanied by the cash, and the subscription must be for a period of six months or longer. The 100,000 free votes are IN ADDITION to the number given on the subscription as per the regular vote schedule.

NOMINATION BLANK

The Register and Bee's "Everybody Wins" \$10,000.00 Campaign.

I hereby enter and cast 5,000 free votes for

Name (Mr. or Mrs.)

Address

As a candidate in the "Everybody Wins" Prize Campaign. Send or bring this Nomination Blank to Campaign Manager at The Register Publishing Company office, Danville, Va.

NOTE:—Only one nomination blank accepted for each candidate nominated.

Telescope Is Lovers' New Guide!

(Special to The Bee.)
BOSTON, April 14.—If you're in love, go buy a telescope and study the stars. Cupid has taken up astronomy and is doing a rushing business.

Here are two weddings already of persons who have found their affinities in the stars.

Says Dr. George W. Smallwood, one of the star bridegrooms: "If more persons contemplating marriage would consult the stars, rather than Blue Books and bank books, the divorce percentage would be lowered considerably."

Dr. Smallwood is 61. His bride, Miss Caroline Bain, also of Boston, is 28. Yet, says he, their vastly removed birth dates indicated a marriage—or at least that's what the stars said. And the wedding date—Friday the Thirteenth of April—indicates that the stars frown upon superstition.

The same stars, read from New York, foretold another wedding. Miss Evangeline Smith Adams, one of America's foremost astrologers, had been reading them a long time and she was in on the astronomical secret that she was to be married at this time.

They—the stars—revealed the same secret to George Edwin Jordan, Jr. She had been interested in his horoscope, which naturally led the two of them into stargazing, which very soon became a romantic star-spangled path. Result: A wedding at New York's Little Church Around the Corner.

Mrs. Adams (that is to say, Mrs. Adams-Jordan) is 50 and Jordan is 42. He's an astrologer now, too, having become so interested in stars that he has given up the prosaic business of manufacturing metal containers for food which he used to do in Boston until he stumbled on the stormy route to happiness. When they come back from a European honeymoon they're going to astrologize together. The secret of finding your long-sought love in the stars is explained by Dr. Smallwood. Thus:

"Persons born under a certain star will possess, as a general rule, certain prescribed traits of character. And if there be tendencies to weakness in one direction and surprising strength in another, the fine counter-

MISS EVANGELINE SMITH ADAMS (LEFT) AND MISS CAROLINE BAIN, APRIL ASTROLOGICAL BRIDES, AND DR. GEORGE W. SMALLWOOD (INSET), WHO SAYS THE STARS TOLD HIM HE LOVED MISS BAIN.

balance may be had in mating with one who contemplates these qualities. Consult the stars and find your ideal; find the one who will be congenial, helpful, and yet stimulatingly different from yourself."

STEEL PRICES DOWN; BREAD PRICES RISE

(By The Associated Press)
WASHINGTON, April 13.—Value of the products of steel works and rolling mills was cut nearly in half while bread and other products had only a slight decline in the two years from 1919 to 1921. Statistics for 1921 announced today by the Census Bureau showed the value of products of steel works and rolling mills to have been \$1,481,569,000, a decline of \$1,347,243,000 or 48 per cent, as compared with 1919. Bread and other bakery products were valued at \$108,759,000, a decline of \$62,137,000 or 5 per cent, from 1919.

Manufacture of lumber and timber products in 1921 showed a value of \$902,501,000, a decline of \$484,970,000 or 34 per cent. Manufacture of hardware totaled \$116,693,000, a decline of \$37,836,000 or 24 per cent.

Compared with the value of products in 1914 each of these industries showed a gain. Bread and other bakery products increased 122 per cent in value in the seven years. Products of steel works and rolling mills, 61 per cent; manufacture of lumber and timber products, 26 per cent; and manufacture of hardware 58 per cent.

Only in the manufacture of bread and other bakery products did wages increase between 1919 and 1921, although in each of the industries there was a large increase as compared with 1914.

Bakeries paid \$232,396,000 in wages in 1921 as compared with \$207,057,000 in 1919; steel works \$413,861,000 compared with \$271,517,850; lumber \$385,024,000 compared with \$545,347,000 and hardware \$448,000 compared with \$57,469,000. The number of persons engaged in each industry, however, declined, the number in the steel industry from 421,861 in 1919 to 262,315 in 1921.

WOMEN NEEDED IN POLITICS IS THE NEW DICTUM

(By The Associated Press)
DE-MOINES, Ia., April 13.—More women in the dual role of "politician and housewife" and needed if the fullest possibilities of the American political system are to be realized. Mrs. Gifford Pinchot, wife of the governor of Pennsylvania, told the convention of the League of Women Voters tonight. Women no longer are seeking rights, she declared, but are being efforts to measuring the responsibilities which are theirs in the present political status.

"I am a politician of the most hard boiled and shell back variety—and proud of it," she declared in a brief exponent of the gubernatorial campaign in 1922 in which she declared women were an independent influence. We elected a governor against the unified effort of a supposedly unbreakable machine," she said, and told of the "hectic days of our campaign."

Every one of us has to be in politics in the fullest sense of the word. We cannot afford to stand aside. The world movement for security and peace offers probably the most attractive field for women's activity. Mrs. Pinchot said but vexing domestic problems are not to be forgotten. Law enforcement, education, transportation, agricultural marketing, industrial problems and direct primary conservation of natural resources and the development of public opinion are other questions not only worthy of the attention of women voters but actually pressing for attention.

BISHOP TUTTLE WEAKER
(By The Associated Press)
ST. LOUIS, April 13.—Bishop Daniel S. Tuttle of the Episcopal Church, this afternoon was growing weaker steadily.

VACANCIES TO LABOR BOARD TO BE FILLED TODAY

(By The Associated Press)
WASHINGTON, April 13.—President Harding expects to announce tomorrow the appointments to the Railroad Labor Board to fill vacancies occurring April 15 from the termination of the terms of one member of each of the public, labor, and railroad groups, it was announced today at the White House.

Vacancies on the board to be filled are the places now held by R. M. Barton, of the public group; Albert Phillips of the labor group; and Horace Baker, of the management group. It is possible that the present members may be reappointed. Nominations for the vacancies were submitted some time ago by representatives of labor and of the railroad companies.

Announcement of appointments to the farm loan board and to the Federal Reserve Board, where the "dirt farmer" membership is vacant, had been expected today from the White House, but it was explained that the president was not ready to make public his selections because of the requests made for hearings by those backing various candidates.

GRAFT CHARGES UNSUPPORTED

(By The Associated Press)
WASHINGTON, April 13.—No evidence to support graft charges against Veterans Bureau officials have found by Director Hines since he took charge of the bureau six weeks ago. He said today in discussing the inquiry now being conducted by a Senate Committee.

Recently John F. O'Ryan, special counsel for the investigating committee, said he believed that "dishonesty on a big scale" would be found in the course of the inquiry. The director emphasized today, however, that although he had made a number of changes in bureau personnel to effect economies and insure a more compact organization, he had not acted on "any evidence of graft."

Rejection of the bids for construction of the Livermore, Calif., project does not necessarily mean that the project has been abandoned, the director said. He is not yet prepared to say what the future of the project will be, and if it is found that existing facilities are not adequate to meet the needs of the state bids may again be asked for a Livermore hospital.

Fired

This is Frownie Roberts, who got a job with a Los Angeles movie concern on her alleged ability as a swimmer. When she got in the water, say her employers, she couldn't take a stroke. So she got the blue envelope.

GOVERNORS WILL SUPPRESSION OF LIQUOR TRAFFIC

(By The Associated Press)
WASHINGTON, April 13.—Governors of the several states are to be requested by President Harding to meet with him in Washington in May for a second discussion of means and methods of co-operation between the federal and state governments in the enforcement of the prohibition laws. The conference, which has been planned by the president for several months, will be in the nature of a meeting to go over the results of the steps toward co-operation initiated at the first governors' conference held at the White House last fall. It had been expected that the governors would be asked to meet with the president this month, but the announced form the White House today said that the legislative situation in several states made it advisable the conference until May.

GEO. W. WRIGHT LAID AT REST

(By The Associated Press)
MARION, April 13.—Funeral services of George W. Wright, past grand master of Masons in Virginia and at the time of his death grand lecturer for the State, were conducted here today. The services at the grave were conducted by the Grand Lodge of Virginia.

More than five hundred Masons were in attendance. The honorary pall bearers were fifty Masons carrying flowers. The following past grand masters were present:

Most Worshipful W. L. Andrews, James B. Wood, Joseph W. Eggleston, John S. Bottimore and E. L. Cunningham.

The deceased succumbed after a long illness at a Roanoke hospital on Wednesday.

TWINE-SAVER COMES TO FORE

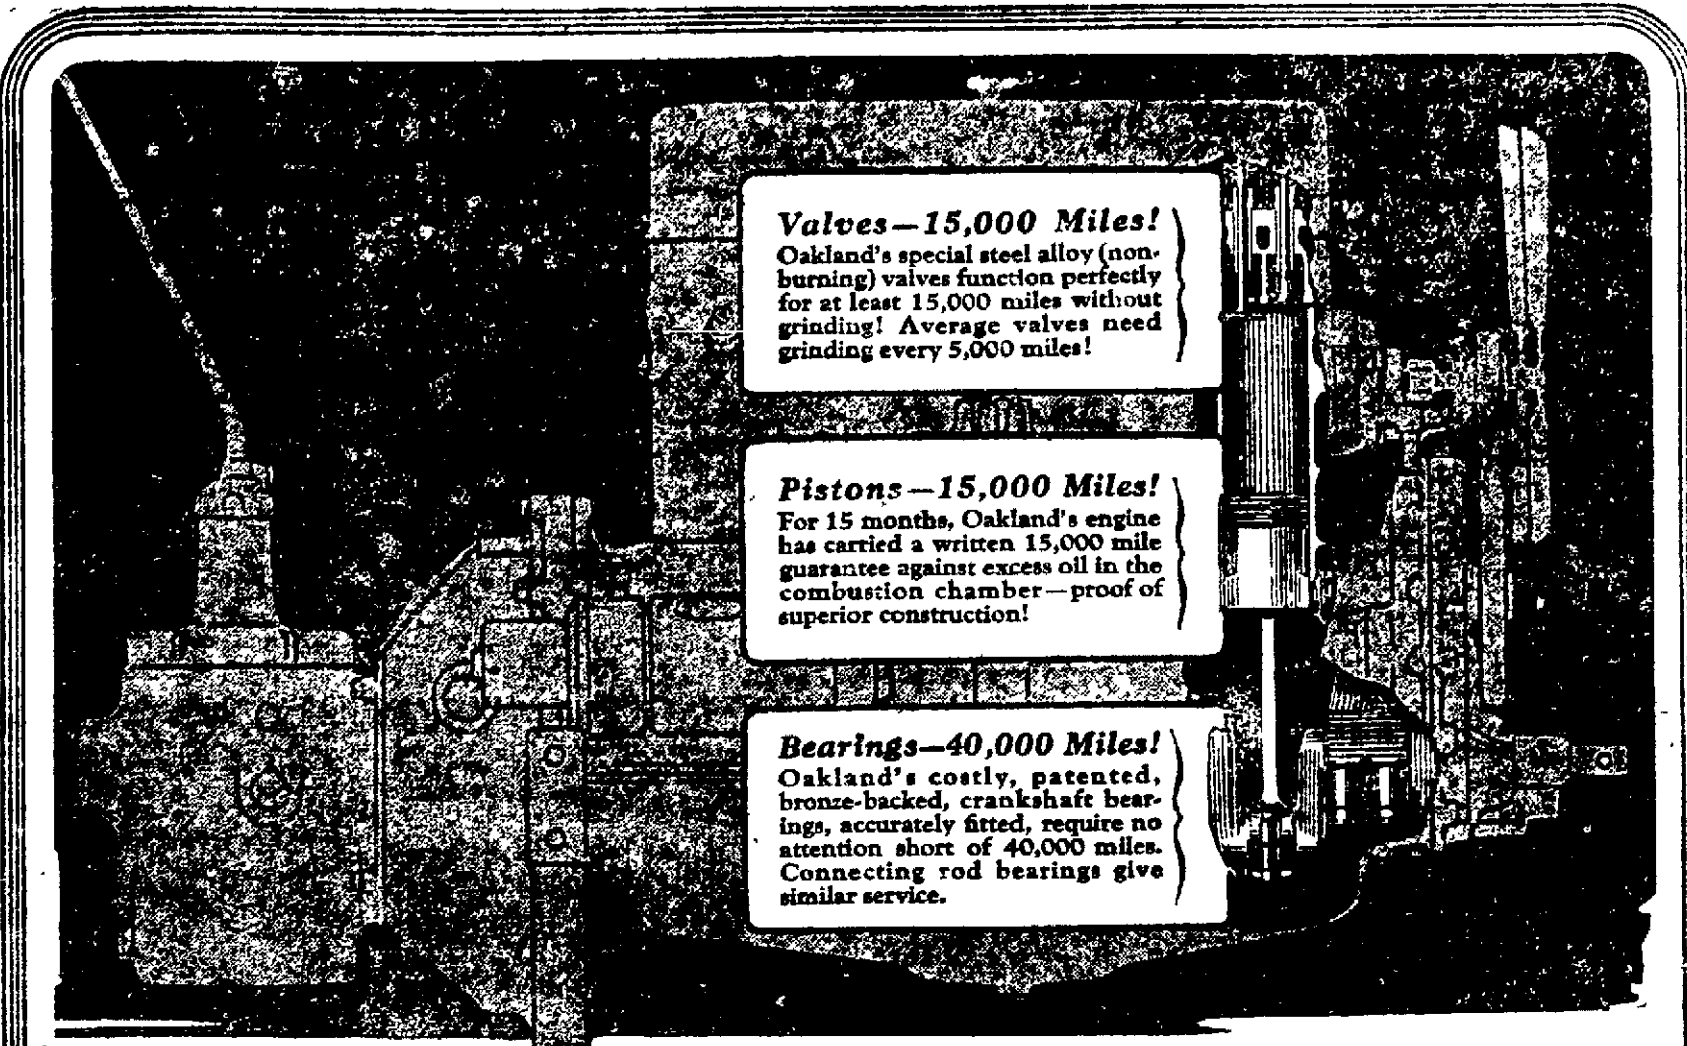

(By The Associated Press)
WASHINGTON, April 13.—The postmaster of Blackwell, Oklahoma, was awarded the palm today as the champion twine-saver among the many thousands of postal workers who have been cautioned to cut down expenditures by using over again "the pieces of string with which incoming mail is wrapped."

The Tower City postoffice, reported it had requisitioned no twine in seven years, then Jourdan, Texas, raised the record to eight years, Roseland, Va., pushed it up to 23 years and Marshallville, Ga., carried it to 30.

But along came the Blackwell postmaster today with a report that twine in his office was "piling up on him." Clerks, carriers and charwomen, he said, had become experts at winding up rolled twine so that not "a wee bit" of the twine-tying bunch in Oklahoma.

PETERSON DEFEATED

(By The Associated Press)
NEW YORK, April 13.—Albert Cutler of Chicago, champion, defeated Charles Peterson of St. Louis 30 to 240 tonight in the first block, of their opening match for the world's \$2.25 shotstop billiard championship.

The Inside Reason for Oakland Success—Known Mileage

What single thing—more than any other—is influencing so many careful buyers in favor of the Oakland this year? What definite superiority accounts for the increasing number of Oaklands you meet on the streets every day?

AFTER all, the success of a motor car depends upon the success of its engine! To the Oakland engine, therefore, must go the major credit for Oakland's phenomenal success this year.

If ever a manufacturer set about deliberately to build the finest light-six engine that could be built—Oakland did! Materials were chosen with scrupulous care! Special steel alloys were employed wherever they would increase efficiency, lessen weight, or insure longer life.

The costliest bronze-backed, patented bearings were chosen; cylinders were honed to the smoothness of glass; special design, two-piece piston rings were employed—and the workmanship was checked and re-checked to infinitesimal dimensions.

Because Oakland employs only the

finest metals known to motor building practice—and because of the accurate and precise standards that prevail in Oakland factories—the Oakland company is able to offer you a car that will give exceptionally long mileage,—known mileage, free from trouble or expense.

Oakland knows, for instance, that in addition to the remarkable mileages given above, an Oakland will average from 20 to 25 miles per gallon of gas and 15,000 to 25,000 miles per set of tires.

REMEMBER these things when you choose a car this spring. Compare an Oakland—in points that you can see or feel—with any other car and you will understand why so many careful buyers are convincing themselves that the Oakland Six offers more for the dollar than any other automobile built.

There are simply adding Linseed Oil to L & M Semi-Paste Paint and you are done. Saves you Money.

The Human Form Divine

THE THIRD OF A SERIES OF ARTICLES IN WHICH MR. ZIEGFELD GIVES EXPERT OPINION AND ADVICE ON JUST WHAT BEAUTY IS, AND HOW YOU CAN TELL WHO HAS IT AND WHO HASN'T.

These Measurements Added Make a Sum Of Beauty

Height—Five feet, five and one-half inches. The height should be seven and one-half times the length of the head.
Weight—One hundred and twenty pounds. The head should be four times the length of the nose.
Foot—Size five. The arms should be three-fifths the length of the body.

What Makes a Beautiful Girl?

By FLORENZ ZIEGFELD, Jr.

THE HUMAN FORM DIVINE.

AMERICANS, more than any other nationality, have a passion for slenderness.

Therefore girls who would win beauty prizes abroad would never take first place in a contest here; they would be considered too fat. The Venus de Milo would never be accepted for a beauty chorus nowadays; she would be too tall, too fat, too well, she would be ineligible for a lot of reasons.

These are the measurements that I would give for a typical Ziegfeld show girl of today. They are not given as a standard that must be adhered to, but merely as a suggestion of what are considered about the right measurements.

Height—Five feet, five and a half inches.

Weight—One hundred and twenty pounds.

Foot—Size five.

The height should be about seven and one-half times the length of the head.

The head should be four times the length of the nose.

When the arms are hanging straight at the sides, they should be three-fifths the length of the body.

Quite naturally, I do not insist that the girls whom I accept for one of my productions shall exactly meet these requirements. I haven't an idea whether they do or not, except as they seem to me to be well proportioned.

Almost Criminal To Be Fat.

Nowadays it's almost a crime to be too fat. As I have said, Americans have a passion for slenderness. Other nations don't share this feeling. I have heard that recently, when an American-made motion picture was taken in Germany, the exhibitors featured one of the minor characters in their advertising, because she was bigger and fatter than the star, whom they considered far too thin.

History tells us that the women of other days did all they could to assure plumpness. The Empress Theodora was accustomed to spend days in warm baths, followed by days in bed.

In many countries today, it is what is called the vital type of woman that is accepted as the most beautiful—that is, the woman of soft contours, who is rather plump, slow moving, languorous.

But in the United States we insist that if a woman expects to be considered beautiful, she must be slender. One would think that the modern chorus girl, between performances and rehearsals, and the activity of her everyday life, would have no difficulty in keeping thin. Yet there are no more ardent devotees of horseback riding, swimming and other forms of vigorous exercise than these girls. They are tremendously interested in keeping their figures; they have to be!

"How do you keep thin?" "Are you dieting?" "Want to go riding before breakfast tomorrow morning?" It's no infrequent thing to hear such remarks when they chat off stage.

Nobody realizes more keenly than does the chorus girl that beauty must be cared for if it is to last. The chorus girl who loses her beauty is likely to lose her job. And these girls have to look out for the future—not always because they need to support themselves, but because they like being on the stage, and would hate to give up their profession. Therefore they see to it that they stay slender, for the sake of the future as well as because of the present.

And oh, how meet of them scorn a fat woman! She is looked upon as a lazy thing who hasn't strength of character enough to stay thin. Their feeling for her is rather like that of the workers in the beehive for the drone. They work at being beautiful and she doesn't, you see.

Three Types of Beautiful Figures. In giving the measurements which I set down a moment ago, as I said then, I was considering the average girl.

But there are three distinct types of beauties in a revue nowadays—the ponies, the girls of medium height, and the show girls.

The ponies are the little girls, who do most of the dancing. There is an entire ballet of them in this year's "Follies." Many a well-known musical star has come from the ranks of these "little girls"—the American public is partial to the petite and pretty girl who has talent and charm.

The girls of medium height are used in nearly all the numbers—they are the backbone of the chorus. I have given you approximate measurements for them because I consider them the average American girl, representative in size as well as in facial beauty of the best that America offers in the way of beautiful womanhood.

The show girls are taller, though of course not excessively tall. Five feet eight is the limit. There is the dignified, gracious type of beauty. The same general proportions are right for them as for the average girl.

Now, many women would be better looking if they sat down.

In Which Class Are You?

Now, many women would be better looking if they sat down.

I know of no better way to acquire this carriage than by taking dancing lessons. Not ballroom dancing, but the sort of aesthetic dancing that is taught nowadays in schools of the better type. Dancing of this sort works wonders. Of course, one reason for this is that it develops perfect balance, which is at the bottom of all beautiful standing and walking. It gives perfect control of the arms and legs, so that a girl can stand gracefully with her arms hanging at her sides, relaxed and yet beautifully straight.

Vigorous physical exercise will not assure you of standing well; it is likely to make for hardness rather than grace, unless it is balanced against dancing. A certain amount of it is absolutely necessary, but it must have dancing as its complement.

The girl who carries herself well is free from self-consciousness; her body is so well trained that she can forget it in thought of what she is doing. It is usually the woman who stands badly who is awkward. No matter how pretty a girl's features and figure are, if when she first comes to see me she stands awkwardly, and shuffles when she walks across my office, I can see that she is temperamentally out of proportion, and am likely to select another girl who is perhaps not quite so pretty, but whose carriage is better. I know that the first girl's defects could be overcome by training, but have not the time to train beauty.

Try Observation

One of the best ways to cultivate beauty is to watch beautiful women. I have seen charming little country girls who were pretty, but no more than that, become beautiful after a few months in New York.

That was because they had had the opportunity to watch really beautiful women, and to take notes on what beauty is. Often distinctive beauty lies in the turn of the head, the movement of the body. It is elusive, but it is the thing that makes one woman stand out while others pass unnoticed. The girl who wants to go on the stage should go to the theater just as often as she possibly can, and study the stage's beautiful women as she would study a book.

She should pick out those whose type she is, and watch them carefully. Then she can adopt what she likes best about them to her own needs. I do not mean that she should imitate them, merely that she should learn from them. Carriage, posture, the manner in which they sit and stand—these things are all important, and the stage offers every woman an opportunity to learn from living models.

The danger of learning in this way is that a girl may let her new-found knowledge make her artificial. Then she becomes awkward, and no matter how beautiful her figure may be, if she handles it awkwardly she is not even pretty.

But if she can pick out another woman's best points and then use them to her own advantage, she'll get results that will astonish her.

and thought themselves over carefully, deciding to which of these three types they belong.

They certainly will fit into one of the three. Many a woman is not stunning simply because her looks and carriage are misfits. She is really a showgirl and she walks like a pony. She tries to be cunning, as only a small woman can be, instead of claiming for herself the more gracious ways of beauty. Or perhaps she's one of those who belong in the second class, and tries to fit her looks into the ways of those who are in the third.

Moreover, many a woman is colorless simply because she doesn't make any effort to find out just what is the proper accent for her beauty. She goes along like a man with his eyes shut, and then looks at the girls she sees on the stage and wishes she were as beautiful as they are.

The woman who doesn't know where she belongs ought to lose no time in finding out. If she's the small, delicate, quick moving type she can adopt the ways of the ponies—she can be as much of a sprite as she likes. The world expects it of her.

If she's the average type, she can take a little from both of the other classes, depending largely on her other characteristics to determine the side on which the balance shall lie. If she is the

dark, languorous sort of girl, the showgirl's charm is for her; if she's blonde, vivacious, bubbling over with fun, she's the pony type.

The Carriage Makes the Girl

It is most important for a woman to classify her beauty, because her way of carrying herself is sure to have much to do with proclaiming to the world that she is beautiful. We have all known girls who really were good looking, but weren't so recognized by their friends because they walked in a lopsided, stoop shouldered fashion, held themselves badly, made no effort to seem beautiful.

Then perhaps they fell in love. Instantly they were transformed. They straightened up, held their shoulders back and their heads up, looked like something. And people exclaimed, "How good looking So-and-so has become!"

Now, I insist that the girls who are given places in one of my revues shall be as beautifully straight as the stem of the American beauty rose whose name we have taken for them. They must carry themselves as if they knew that they were beautiful. They must not hunch their shoulders up, or let their bodies collapse in the middle, emulating the "debutante slouch" that a few years ago swept across the country like a scourge.

At left, Evelyn Law would win out nowadays where the Venus de Milo would fail.

At right, there's a sketch to show what the measurements mean.

At top, Margie Whittington's legs are the kind Mr. Ziegfeld favors for the Follies

At left "a typical show girl"—Frances Reveaux

Azenda, of the Greenwich Village Follies, keeps her figure what it is y stands like this.

TURK RAILWAY TO BE INDORSED (By The Associated Press) April 13. — "Our mothers, sisters and wives have toiled in the past, carrying shells on their heads against the national foe. In the future, thanks to the proposed railway, they will not be sacrificed."

Thus spoke Reut Bey, the pre- mier, in addressing the session of the great national assembly at Angora which approved the Chester conces- sion. It was considered one of the strongest arguments used during the debate in favor of ratification of the project.

The plan of the Chester Syndicate proposed to embrace the famous cop- per mines at Erghana and also is expected to tap the supposed oil fields between Bitlis and Mosul.

The course of the railway he di- vert in order to traverse the Mosul oil fields but this point probably will be left open until a settlement of negotiations between Great Britain and Turkey.

TAR FINDS LARGE PEARL IN PEARL HARBOR, HAWAII HONOLULU, April 13.—Pearl Har- bor is no misnomer, as Frank Gomez, a fisherman of the Hawaiian isle, has just discovered a large pearl. Gomez was fishing for oysters at the submarine base at Pearl Harbor re- cently when he uncovered a glestine- like, milkish-white, perfectly formed pearl, the size of a pea. Local jewel- lers say it is valuable and should bring well into the hundreds of dollars.

TO MY FRIENDS AND THE PUBLIC IN GENERAL. I am working to win the Capital Prize in Register-Bee contest and will highly appreciate any and all votes and support you or your friends may accord. Respectfully, MRS. CHAS. NOLAN MOTLEY, 706 North Main street, Danville, Virginia. Phone 1248 and 1725. 4-14 B&R 6t

THREE CHILDREN HURT WHEN CAR OVERTURNED. REIDSVILLE, N. C., April 13.—A large Republic truck owned by the county in transporting children to school in Reidsville from Harrison Cross Roads overturned this after- noon four miles northwest of here and three of T. A. Moore's small children were injured and several others suffered scratches from broken glass and minor injuries. The slick roads caused the driver to lose control and ran- dy-odd occupants had narrow escapes from death.

Earlier in the afternoon a small sized cyclone visited this section and blew down the Southern Power Co. poles cutting off the power for two hours and resulting in other damage.

These New Models Have Streamline

BOSTON, Mass., April 13.—Latest styles in hoodlums' coats were displayed by the police today as a result of a raid on a tenement house in the North End where a quantity of moonshine was seized. There are two models. Each is of two partitions, ungarment of two gallon capacity, shaped to the body and held in position under the coat by shoulder straps. One has faucets at the bottom to pour liquor into a glass. The other had a rubber hose to siphon the stuff through openings in the top.

SALE OF RESIDENCE PROPERTY NO. 233 SOUTH MAIN STREET AND UNIMPROVED LOT IN REAR FRONTING ON PATTON STREET.

Pursuant to the terms of a trust deed from Eliza Smith Taylor, et vir, dated September 27, 1922, recorded in Deed Book 117, Page 457, default having been made in the payment of the debt therein secured, and being required so to do by the beneficiary, the undersigned will on

Saturday, April 13, 1935

At 6 O'Clock P. M.

sell at public auction on the premises, the following lots:

(1) Lot with dwelling house thereon, situate on the East side of South Main street, No. 233, beginning at the corner of lot No. 11; thence North along South Main street 52 feet to Paxton street; thence with the southern line of Paxton street, 139 feet; thence South about 50 feet to line of lot No. 11; thence along the line of lot No. 11, 105 1/2 feet to Paxton street, at the point of beginning.

(2) The unimproved lot adjoining and lying in the rear of the above described lot, fronting 45 feet on the southern side of Paxton street, and running back between parallel lines 50 feet to line of lot No. 11.

Said lots will first be offered separately, and then as a whole.

This sale is made subject to the lien of a prior deed of trust to secure the payment of \$2,100 to the Mutual Building and Loan Association of Danville, Va., which trust deed is to be assumed by the purchaser.

TERMS OF SALE: Cash, except as to \$2,100, to be paid to Mutual Building and Loan Association of Danville, Va., in weekly installments of \$8.25 and weekly interest of \$2.90, making total weekly payments of \$11.15, to be made until maturity of the 25th series of the stock of said association.

E. WALTON BROWN, Trustee.

Patton, Temple and William, Auctioneers.

SALE OF REAL ESTATE BY TRUSTEE

Pursuant to the provisions of the deed of trust from Dodson Hardy and Cordella W. Hardy, his wife, to A. M. Aiken, Trustee, dated March 11, 1922, recorded in the Clerk of the Court of Danville in Deed Book 115 page 334, to secure a certain debt owing to Blanch McIntyre by Dodson Hardy and Cordella W. Hardy, default having been made in certain of the notes secured therefor for a period of more than ten days, and the entire debt secured therein having become payable according to the provisions of the said deed of trust, I shall on

Friday, April 13, 1935,

At 4 O'Clock P. M.

on the premises offer for sale at public auction to the highest bidder the following described lots with improvements thereon:

(1) Lots No. 4 fronting 45 feet on the south side of Gay street in the City of Danville and running back between parallel lines 110 feet to Lot No. 11 in the rear.

(2) Lot No. 2 fronting 28 feet on the west side of Valley street in the City of Danville, thence between parallel lines 150 feet on one side and 137 feet on the other side back to 20 foot street or alley.

The said two lots were conveyed to Dodson Hardy by William Steegar and James P. Harrison, trustees, in deed recorded in the Clerk of the Court of Danville in Deed Book 83, page 156.

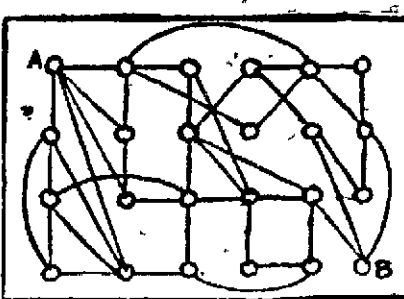

Terms Cash.

A. M. AIKEN, Trustee.

A Puzzle a Day

In the diagram shown above, a course may be traced from A to B, along the lines between the circles, that will touch each circle once. Each line must be followed from circle to circle, it is not permissible to where two lines cross. Can you trace the course?

Yesterday's answer:

The word "five" is composed of four letters. If P and E (two letters) are removed, IV (Roman numeral four) will remain. Take away the I, which leaves V (five). Replace the FIL, and you will still have FIVE.

WILL TRY TWO FOR CONSPIRACY

(By The Associated Press)

NEW YORK, April 13.—Dominick Didato and Abe Silverstein were arrested by agents of the Department of Justice late today on charges of having added Gerald Chapman, a million dollar mail robber, to escape from the hospital at Athens, Ga., April 4.

United States Commissioner Hitchcock held the pair in \$1,500 bail pending proceedings for their removal to the federal penitentiary.

Edward J. Brennan, chief of the local Department of Justice office, said the two men were generally known in the underworld as having been in those quarters that they had aided in the escape.

BRING MEN TO TRIAL.

(By The Associated Press)

ATHENS, Ga., April 13.—Federal authorities announced today that they plan to bring Dominick Didato and Abe Silverstein from New York immediately and place them on trial in the United States Court here Monday, April 23, on the charge of having aided Gerald Chapman, the million dollar mail robber, to escape from the Athens hospital April 4.

ROMER KEE IS IDENTIFIED AS BANK ROBBER

(By The Associated Press)

GREENSBORO, N. C., April 13.—Romer Kee, a young white man, was today positively identified in Superior Court as the man who held up Cashier Howard Simpson and Director B. H. Hoskins and robbed the bank at Greensboro of \$1,514 on May 29, 1932, by the two officials who are principal witnesses for the state in the trial of the young man for the robbery.

Examination of the state's witnesses was not completed when court adjourned tonight.

JUDGE QUIZZED BY COMMISSIONER

(By The Associated Press)

NEW YORK, April 13.—Commissioner of Accounts Hirschfeld, directed by Mayor Hylan to investigate the charges that the police were in league with rum sellers, today questioned Magistrate Joseph E. Corrigan for several hours to learn the basis of his assertions from the bench that "half of the New York cops are boot-leggers."

COLOR TAKES SOMBERNESS OUT OF BLACK LACE GOWNS

(Special to The Bee) Coming of warm weather is seen from the fact that black lace gowns are worn more frequently in combination with white at theaters, restaurants and elsewhere. One attractive dress of this material or black-colored silk, if cleverly chosen, is worn with them—these gowns are far from the somberness of an all-black costume. Another modish black dancing frock is of black lace tied on one hip, giving it a large bow or coral-colored, giving it a popular and new look.

Odor of Flowers Made Sweeter By Grafting Process

PARIS, April 12.—Prof. Daniel, of Rennes University, in Brittany, has intended greatly the perfume of perfume of flowers by grafting one plant on another of the same family.

He first experimented by grafting wormwood on chrysanthemums and got splendid large flowers with a much stronger perfume, which had "a peculiar quality altogether agreeable." Then he planted seeds from the new plant and got some flowers with strong perfume and some with none at all.

He explained the discovery to the Academy of Science yesterday and experiments will be continued on a large scale at the horticultural establishment at Grasse, Southern France.

DRIVEN

"Driven" is a powerful epic—a cross-section of life in the Blue Ridge Mountains. At its premiere presentation in New York one critic wrote:

"It is the one picture you cannot afford to miss. It is magnificent—the final word in cinema production and one that seldom will be excelled."
